1. What Is SPARKD?

SPARKD is a community-driven token built on the Solana network.

SPARKD was created around a simple idea: cryptocurrency can be more than speculation. It can bring people together around creativity, community, and positive action.

The goal of SPARKD is to build an active community of creators, builders, believers, and people who want to be part of something positive.

SPARKD is designed to grow alongside its community, with future initiatives shaped by participation, creativity, and shared ideas.

2. Mission & Vision

Our Mission

The mission of SPARKD is to build a community centered around **kindness, creativity, and meaningful action**.

As the community grows, SPARKD aims to explore opportunities to support positive causes and real-world acts of compassion, including helping families in need, feeding the hungry, and encouraging people to make a difference in their own communities.

Our Vision

We envision a community where digital culture and positive real-world impact can exist together.

SPARKD aims to create a continuous cycle:

Community → Creativity → Action → Positive Impact → Stronger Community

The future of SPARKD will be shaped by the people who participate in it.
